

The Dawn of A New Day

Back and behind the sordidness and weariness of the War, men of vision glimpse a great light—

FREEDOM OF THE WHOLE WORLD!

The accomplishment of this end is the definite task that we as a nation have set for ourselves.

Every true patriot will support his Government and will lend his money to the fullest extent of his capacity.

A WORD FROM PRESIDENT WILSON

"The reply of the German government to my note of inquiry, dated October 8th, gives occasion for me to say to my fellow-countrymen that neither that reply nor any other recent events have in any way diminished the vital importance of the Liberty Loan. Relaxation now, would mean defeat when victory seems to be in sight; would mean years of war instead of peace upon our own terms.

"I earnestly request every patriotic American to leave to the governments of the United States and allies the momentous discussions initiated by Germany and to remember that for each man his duty is to strengthen the hands of these governments and to do it in the most important way now immediately presented—by subscribing to the utmost of his ability for bonds of the Fourth Liberty Loan. That loan must be successful. I am sure that the American people will not fail to see their duty and make it successful."

Yours for the Fourth Liberty Loan,
ST. ELMO MESSENGALE,
Director of Publicity.

FOURTH LIBERTY LOAN

The following reports have been received: From Crandall, W. C. Davis, chairman, quota \$8,000, subscribed \$13,000. Kings Ferry, E. P. Davis, chairman, quota \$17,000, reports \$17,050, also reports that Mrs. Alma Ingram was a most constant worker and that he is indebted to her for the greater number of subscriptions. Hilliard, G. H. Stokes, chairman, quota \$17,000, reports \$17,200, including \$2,600 from railroad employees. He and his committee are still working fifteen hours a day to put Hilliard still over. Have not had any report from other districts, but will have a full report next week. I you have not subscribed, do so at once. Many a man wants to subscribe but is not in a position to do so. He is just as patriotic as the man who has subscribed, but the man who is in a position to subscribe and does not do so, is a slacker and is not worthy to be called an American citizen.

DIED IN SERVICE OF HIS COUNTRY

Myron W. Lovell, of the United States coast guard, died in this city Wednesday at 9:30 a. m., of pneumonia. He was at first suffering from influenza, which developed into the dreaded pneumonia and which caused his death. The father of the young man reached the city a few minutes too late to see his boy alive. He was classed a first-class fireman in the navy. The body was sent to Sanford, Fla., accompanied to the depot by a naval escort. The deceased was highly regarded by the officers above him, and also by his companions, and has two brothers in the service, one a captain and the other a lieutenant, and was a nephew of Gen. Lovell, of the United States army.

GASLESS SUNDAYS OFF

Washington, October 17.—Fuel Administrator Garfield today lifted the ban on gasolineless Sundays, effective at once.

Should the gasoline stocks again fall dangerously low, it was stated at the fuel administration, the request will be renewed. It is probable that priority orders will begin for shipment of gasoline overseas.

THE LAST CALL

Notwithstanding the "flu," the Amelia Island Concert band and the fire bell brought a large crowd of our good people to intersection of Third and Center streets Monday evening, October 14, where, after appropriate introduction by our gifted mayor, Mr. Lawrence Chamberlain, of New York, delivered one of the best speeches heard in Fernandina recently. Armed with facts and figures, gathered from extensive travel along the Western battle front, Mr. Chamberlain held his hearers at rapt attention throughout his entire talk. He went into details and told clearly and unmistakably the character of enemy the civilized world is now battling to subdue.

Mr. Chamberlain was accompanied by as fine a specimen of young American manhood as one cares to see. But also, wounds from enemy shells in the shoulder and abdomen have rendered his right arm useless and he can never more raise it with that matchless American courage in defense of his country. When we view the sacrifice our soldier friend has made, how can one grudgingly place his money at the disposal of his government, or refuse to buy Fourth Liberty Bonds, even to the point of real sacrifice? If we gave our government our money, we could hustle and earn more, but neither energy nor surgical skill can restore to usefulness the right arm of this soldier, who staked all for justice and righteousness.

Let us be up and doing. When this reaches the reader, only one day will remain in which to buy Fourth Liberty Bonds. If you have not already bought, are you sure you can acquit yourself with your conscience in days to come, or any "I harbored no slacker dollar?" Nothing short of an over-subscription of our quota is our full duty. Altogether. Let's do it gloriously.

A. S. ALLAN,
Chairman.
